EAST SUSSEX COUNTY COUNCIL
ROAD TRAFFIC REGULATION ACT 1984

The East Sussex County Council (Rother District) (Off-Street Parking Places) Traffic Regulation Order 202* (Broomhill Sands Car Park)

STATEMENT OF REASONS

The Council is proposing to introduce parking charges at Broomhill car park to help manage demand for parking and ensure spaces are available for visitors and customers using local facilities.

Parking charges can encourage a greater turnover of vehicles, making it easier for more people to find a space when they need one. They also help cover the costs of maintaining, operating and improving the car park so that it remains safe, accessible and well managed.

The Council believes that these changes will support the efficient use of parking facilities and help meet the parking needs of the local community both now and in the future.

The proposed Traffic Regulation Order will be subject to consultation with local residents, Rother District Council, the local County Council member and statutory bodies including the Police.
