

Alcohol and Drug Treatment Service: Have your say on the new service

The Council ask people for their views before important changes are made.

When the Council ask people for their views it is called a **consultation**.

We want to make sure that we listen to people and know what they need.

So we use your views to help shape and design our services.

Not all consultations are put into easy read.

This is because some consultations are not right for easy read.

Your thoughts and views are still welcome.

You may want to ask for help to take part in the consultation.

You could ask:

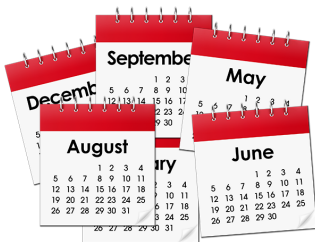

- A support worker, carer or advocate
- A friend or someone in your family
- Your social worker or care manager.

If you do not have anyone to help you, please call on **01273 335 267** between **09:00am and 17:00pm, Monday to Friday** and we will try to help you.

You can find the consultation survey here: [Alcohol and Drug Treatment Service: Have your say](#)

The consultation will close on **31st October 2023**.

This means that you need to send us your thoughts and views by this date if you want to take part.

We will use your feedback to help make important decisions.
