

East Sussex: Our funding gap

Have your say on the Community Support Service

East Sussex County Council is facing a financial gap of £55 million next year.

Most local authorities are experiencing similar cost pressures at the moment.

Despite these pressures, we have a legal responsibility to set a balanced budget.

That means we need to make some difficult decisions about what we spend.

Every part of the Council will need to find savings to help close the gap.

Cabinet considered some of the savings proposals in September.

Any proposed changes that affect services will have a public consultation.

This is one of the Adult Social Care and Health consultations.

The consultations start on 3 October 2024 and close on 28 November 2024.

Decisions are expected to be made on the proposals in February 2025.

Services will continue as normal while we are consulting on the proposals.

This consultation is about our proposal to make changes to the Community Support Service. Read on to find out more or visit our website to take part online: www.eastsussex.gov.uk/funding-gap-asch

Background information

Our funding gap

East Sussex County Council (the Council) has a net budget of £538.1 million for the year from April 2024 to March 2025. Our net budget is the money we have to spend which is financed by business rates, council tax receipts and the revenue support grant we get from the national government.

We expect our net budget for next year to be a similar amount. This means that we are facing a financial gap of £55 million for 2025/26. The financial gap is the difference between the funding available and the cost of keeping services at their present level.

Most local authorities are facing similar pressures. We face this gap even though we are a well-run and efficient council which has saved £140 million since 2010 and found new ways to work effectively through difficult times. Unfortunately, the cost pressures we face now are so great that efficiency alone is not enough and the limited reserves of money we have available would not be enough to meet the financial gap. Most importantly, reserves can only be spent once and could not repeatedly fill the financial gap which councils face every year. It is also not possible to close the whole gap by raising council tax as the increase that would be required is beyond the limit set by national Government.

We are legally obliged to close the financial gap and balance our budget. This means that some tough decisions will have to be made and reduced services are possible in all areas. When making these decisions, our priority will be to maintain protection and support, wherever possible, for the most vulnerable people in our community.

There is more information about why we have to make savings and what we are doing to highlight the issues local authorities face with the national Government on our website at www.eastsussex.gov.uk/your-council/finance/east-sussex-our-funding-gap

Social care support

Adult Social Care and Health is a department of East Sussex County Council. We work with people aged 18 and over who live in East Sussex. We help people live healthy and independent lives, whatever that may look like for them. We look at people's strengths, capabilities, support network, community and difficulties and work with them to find solutions.

The Council has a legal duty to provide social care support to those who are eligible. About three quarters of the East Sussex budget goes on providing social care for children and adults, with adult social care accounting for nearly half of the budget (48%). Care and support for adults is not free and we charge for most of our services. The amount people pay depends on their financial situation, but most people have to pay something towards their care, with the remaining costs paid for by the Council.

Nationally, social care is under pressure due to a combination of demographic, financial, and systemic factors. East Sussex is no stranger to this, facing unique challenges which impact on the need for support and services in the county. Around 25% of the East Sussex population is over 65 compared to a national figure of 18%, average wages remain lower than the national average, and 30,000 people in the county are living in some of the most deprived areas of England. We have also seen a 40% increase in the average weekly cost of providing care in East Sussex since 2020.

As people live longer, they may require care and support for longer, and their care and support needs are likely to become more complex over time. There is also evidence that the cost of living challenges have increased demand for care, as well as making people less able to afford their contribution towards the cost of care.

As social care is such a large part of the Council's budget, we will need to make savings to services in this area too. Reduced services are likely, and we will need to review staff numbers, but the amount we need to save can't be achieved through reducing the workforce alone.

Developing the savings proposals

Given the financial gap we are facing, we know it is impossible to avoid some of our residents being negatively affected by the difficult decisions that we need to make. We have tried our best to identify proposed savings that would have the least possible impact on people's care and wellbeing.

We know too that many of our external partners in the NHS, local authorities, providers and the voluntary, community and social enterprise sector (VCSE) are experiencing their own pressures in terms of demand for services and funding challenges. Where we can, we've tried to take that into account in looking for savings.

Our priority in Adult Social Care and Health is to meet our legal duties under the Care Act. To help us to do this, we have identified funding areas that we think need to be protected when we are looking at savings options.

The priority funding areas are:

- **Community care budget:** This budget covers the cost of care that is provided to adults who are eligible for social care support because of a disability or health condition. This budget is already under pressure because more people need our help, the cost of providing care is increasing, and our residents are increasingly struggling to pay their contribution towards the cost of care.
- **Carers:** As well as protecting the budget for community care which funds support for people who are eligible for social care support, we have tried to protect the direct support we provide to unpaid carers who are looking after their family members and friends. This is because carers play an invaluable role in meeting care and support needs for so many residents and reduce the amount of support they need from other services.
- **Voluntary and community sector (VCSE):** These organisations make a huge contribution to preventing, reducing and delaying the need for care and support from the community care budget. For this reason, we want to protect the funding that we provide to support this sector as far as possible, particularly where we can demonstrate that services are supporting our statutory duties and other priority funding areas.
- **Frontline workers:** We need to ensure we have enough social work staff and occupational therapy workers to carry out assessments and put care and support in place. We also need to retain enough financial assessment staff to ensure we are funding those who are most in need and that people pay the correct contribution.
- **Care market:** We need to ensure we have enough staff so that we can support the care market and ensure we have a good supply of services that deliver the best value.

Consulting on the savings proposals

There are no easy choices and we know that some residents will be very worried about how they and their loved ones might be affected. We are committed to consulting with you on these difficult decisions and providing as much information about their potential impact as we can to support decision making.

There are 11 savings proposals for Adult Social Care and Health that affect services. We are consulting with the public about all of these. As well as these savings, we are also looking at other funding, staffing and income generation opportunities.

This consultation is about the Community Support Service, which supports people with a learning disability in Supported Living and at home in the community. You can find out more about the other consultations and take part by visiting our website:

www.eastsussex.gov.uk/funding-gap-asch

A Government Budget is planned during the consultation period on 30 October 2024. If any Budget announcements affect these proposals, then that will be taken into account during the decision making process next year.

Consultation overview: Community Support Service

How the service works now

The East Sussex Community Support Service is a registered service providing care and support for adults with a learning disability. It is run by the Council and there are two parts to the service: Supported Living and Community Support.

Supported Living: This part of the service supports everyone living in a shared property with their own tenancy. We have four supported living properties, with space for 33 residents. The service supports residents with things like daily living tasks, personal care, and medication. This part of the service employs 30 members of staff, although there are currently some vacancies.

Community Support Service: This part of the service supports adults living in their own home and adults living in supported living services who need more support than the on-site staff can provide. There are 35 clients living in their own homes that use the service and they live across the county. All the residents in supported living receive additional support from this part of the service.

The service supports people to maintain their independence and it employs 22 members of staff. The support ranges from helping them to do practical tasks such as shopping, cooking, and attending medical appointments, through to maintaining their social connections and relationships.

What we are proposing to change

We are proposing to stop providing the community support part of the service. This proposal would affect people living in supported living and at home differently.

People living independently in their own home

If the proposal went ahead, we would find people an alternative service, most likely from the private sector, who could support them instead. This might be through recruiting a Personal Assistant or using home care service providers.

People in supported living

If the proposal went ahead, people would have all their support needs met by the team based at their supported living property at Field Cottage, Park Lane, the Ferns or the Martins. There might be changes to the number of staff working at the property and who supports them.

Why we are proposing this saving

While we recognise the importance of these services, the budget pressures we face mean that we have to make difficult decisions about how we spend our money.

Given that there are alternative services that can provide community support to people, it's difficult to justify continuing to fund this service.

How people and organisations would be affected

Clients living in supported living should not be affected as their support would be provided by staff who they already know and work with. In the long term, the change is likely to improve the consistency of care and offer a better service for residents. The main impact would therefore be the uncertainty involved in making the change.

Clients living in their own homes would need to be found an alternative service. There would be support from our care management teams in adult social care to do this, although it may be harder to find services that suit people's needs in the same way. Services might also not have availability at the specific times that people want.

The family and carers of clients would be affected by the proposal, even if their loved ones are living independently. For those whose loved ones are living at home, if suitable services can't be found it may affect people's ability to take a break from their caring role or maintain their employment.

Have your say on the proposal

We are keen to hear from everyone with an interest, including:

- people who have used the service or whose family members or friends have,
- providers who run the services and the staff who work for the services,
- staff and organisations who work with the services or refer people to them,
- providers who support people who use the services, and
- our partners in the public and voluntary sectors who work with the services and would be affected by the proposed changes.

How you can take part

The consultation closes on 28 November 2024. Please note that if we receive any consultation responses after this date, we cannot guarantee that we will be able to take them into account.

You can fill in the survey online or request a paper copy by emailing or calling (see the 'how to get in touch with us' box later for details). The survey should take about 10 minutes to complete. We can accept consultation responses via letter and email if you aren't able to fill in the survey. These are a little harder to keep track of and analyse, so it would help us if you can use the survey if you are able to.

If you need the survey in another format or language, please get in touch with us.

COMPLETE ME ONLINE

Use your phone or tablet to scan the QR code

Visit our website at www.eastsussex.gov.uk/funding-gap-asch

Community Support Service staff will support people to take part in the consultation if needed and our advocacy provider POhWER will also be available to help if needed. Information about these opportunities will be shared directly with those who are affected by the proposal.

How organisations can take part

Official responses from organisations should be submitted by email or post (see below for contact details). Individual staff wanting to take part should fill in the survey.

What happens next?

Decisions about whether we go ahead with the savings proposals are expected to be made by Councillors in February 2025. This means there won't be any changes to services before that date. Anyone currently using the services can continue to do so in the normal way and the services can continue to accept new clients.

Councillors will consider the results of the consultation alongside a report that sets out what we are proposing to do next and an Equality Impact Assessment (EqIA). An EqIA is a tool we use to understand how particular groups and communities would be affected by a proposed change. The papers, including the EqIA, will be available to the public on our website in advance of the meeting.

The time frame for any changes to services would reflect the legal and contractual requirements for the service in question and we would work closely with those people and organisations who would be affected.

How to get in touch with us

Questions about the consultation or your services

You can talk to the manager of the service, Natalie Rutherford, or you can contact her by email or telephone:

Email: CSSAdmin@eastsussex.gov.uk Telephone: 01273 336 580

Submitting a consultation response

Your survey can be emailed, posted or hand to us. If you aren't able to complete the survey you can submit your response by email or letter.

Email: consultationASC@eastsussex.gov.uk

Post: Funding Gap Consultations, North A Floor, County Hall, St Anne's Crescent, Lewes, BN7 1UE

By hand: Give your survey to a member of Community Support Service staff

The questionnaire

This survey is anonymous and we don't ask you to provide any personal information. There is an optional 'about you' section at the end. Please ensure that any comments you make don't include any names or personal details of you or anyone else. You can find our privacy notice about how the data will be stored and processed by East Sussex County Council on our website:

www.eastsussex.gov.uk/privacy/funding-gap-consultations-dps

Q1) Are you completing the survey as: (Please tick one box)

- Someone who uses/has used the Community Support Service at home
- Someone who uses/has used the Supported Living part of the service
- The family or carer of someone who uses/has used the Community Support Service at home
- The family or carer of someone who uses/has used the Supported Living part of the service
- Someone who works for the Community Support Service
- Someone who works for the Supported Living part of the service
- Someone who lives in East Sussex
- Someone who works in health or social care in East Sussex
- Someone who works in housing in East Sussex
- Someone who works in the voluntary or community sector
- Other (please provide details below)

If you ticked 'other' please provide details here:

To submit an official response from an organisation, such as from the board, senior leaders or heads of service, please provide it by email or letter, rather than completing the survey. Individual members of staff should fill in the survey as normal.

Q2a) How much do you agree or disagree with the proposal to make changes to the Community Support Service?

The Community Support Service would close and people would be found alternative support from other providers, while the Supported Living service would be combined with existing staff teams so that people had all their support from the staff team based at their accommodation.

- Strongly agree
- Agree
- Neither agree nor disagree
- Disagree
- Strongly disagree
- Not sure

Q2b) Please use the box below to tell us why you agree or disagree:

Q3) How would the proposal for the Community Support Service affect you or someone you care for?

What you tell us will help us carry out an equality impact assessment.

Q4) Do you have any other suggestions or comments you would like to make?

- Yes (use the box below for your comments)
- No

Thank you for taking part in the consultation. If you would like to, please fill in the optional ‘about you’ section on the next pages.

**Post your completed survey to: Funding Gap Consultations, North A Floor,
County Hall, St Anne’s Crescent, Lewes, BN7 1UE**

About You: Equalities Monitoring Form

We want to make sure that everyone is treated fairly and equally and that no one gets left out. That's why we ask you these questions. Your data is important to us, and we won't share the information you provide with anyone else. Your information will only be used and reported anonymously to support the activity you have completed the 'About You' survey for.

You do not have to answer these questions but by doing so you are helping to ensure our services effectively meet the needs of all our service users.
