East Sussex: Our funding gap

Have your say on the Mental Health Outreach Service

East Sussex County Council is facing a financial gap of £55 million next year.

Most local authorities are experiencing similar cost pressures at the moment.

Despite these pressures, we have a legal responsibility to set a balanced budget.

That means we need to make some difficult decisions about what we spend.

Every part of the Council will need to find savings to help close the gap.

Cabinet considered some of the savings proposals in September.

Any proposed changes that affect services will have a public consultation.

This is one of the Adult Social Care and Health public consultations

The consultations start on 3 October and close on 28 November 2024.

Decisions are expected to be made on the proposals in February 2025.

Services will continue as normal while we are consulting on the proposals.

This consultation is about our proposal to stop providing the Mental Health Community Outreach Service and instead use existing community and bed -based services to offer support. Read on to find out more or visit our website to take part online: www.eastsussex.gov.uk/funding-gap-asch

Background information

Our funding gap

East Sussex County Council (the Council) has a net budget of £538.1 million for the year from April 2024 to March 2025. Our net budget is the money we have to spend which is financed by business rates, council tax receipts and the revenue support grant we get from the national government.

We expect our net budget for next year to be a similar amount. This means that we are facing a financial gap of £55 million for 2025/26. The financial gap is the difference between the funding available and the cost of keeping services at their present level.

Most local authorities are facing similar pressures. We face this gap even though we are a well-run and efficient council which has saved £140 million since 2010 and found new ways to work effectively through difficult times. Unfortunately, the cost pressures we face now are so great that efficiency alone is not enough and the limited reserves of money we have available would not be enough to meet the financial gap. Most importantly, reserves can only be spent once and could not repeatedly fill the financial gap which councils face every year. It is also not possible to close the whole gap by raising council tax as the increase that would be required is beyond the limit set by national Government.

We are legally obliged to close the financial gap and balance our budget. This means that some tough decisions will have to be made and reduced services are possible in all areas. When making these decisions, our priority will be to maintain protection and support, wherever possible, for the most vulnerable people in our community.

There is more information about why we have to make savings and what we are doing to highlight the issues local authorities face with the national Government on our website at www.eastsussex.gov.uk/your-council/finance/east-sussex-our-funding-gap

Social care support

Adult Social Care and Health is a department of East Sussex County Council. We work with people aged 18 and over who live in East Sussex. We help people live healthy and independent lives, whatever that may look like for them. We look at people's strengths, capabilities, support network, community and difficulties and work with them to find solutions.

The Council has a legal duty to provide social care support to those who are eligible. About three quarters of the East Sussex budget goes on providing care for children and adults, with adult social care accounting for nearly half of the budget (48%). Care and support for adults is not free and we charge for most of our services. The amount people pay depends on their financial situation, but most people have to pay something towards their care, with the remaining costs paid for by the Council.

Nationally, social care is under pressure due to a combination of demographic, financial, and systemic factors. East Sussex is no stranger to this, facing unique challenges which impact on the need for support and services in the county. Around 25% of the East Sussex population is over 65 compared to a national figure of 18%, average wages remain lower than the national average, and 30,000 people in the county are living in some of the most deprived areas of England. We have also seen a 40% increase in the average weekly cost of providing care in East Sussex since 2020.

As people live longer, they may require care and support for longer, and their care and support needs are likely to become more complex over time. There is also evidence that the cost of living challenges have increased demand for care, as well as making people less able to afford their contribution towards the cost of care.

As social care is such a large part of the Council's budget, we will need to make savings to services in this area too. Reduced services are likely, and we will need to review staff numbers, but the amount we need to save can't be achieved through reducing the workforce alone.

Developing the savings proposals

Given the financial gap we are facing, we know it is impossible to avoid some of our residents being negatively affected by the difficult decisions that we need to make. We have tried our best to identify proposed savings that would have the least possible impact on people's care and wellbeing.

We know too that many of our external partners in the NHS, local authorities, providers and the voluntary, community and social enterprise sector (VCSE) are experiencing their own pressures in terms of demand for services and funding challenges. Where we can, we've tried to take that into account in looking for savings.

Our priority in Adult Social Care and Health is to meet our legal duties under the Care Act. To help us to do this, we have identified funding areas that we think need to be protected when we are looking at savings options.

The priority funding areas are:

- Community care budget: This budget covers the cost of care that is provided to adults who are eligible for social care support because of a disability or health condition. This budget is already under pressure because more people need our help, the cost of providing care is increasing, and our residents are increasingly struggling to pay their contribution towards the cost of care.
- Carers: As well as protecting the budget for community care which funds support for people who are eligible for social care support, we have tried to protect the direct support we provide to unpaid carers who are looking after their family members and friends. This is because carers play an invaluable role in meeting care and support needs for so many residents and reduce the amount of support residents need from other services.
- Voluntary and community sector (VCSE): These organisations make a huge
 contribution to preventing, reducing and delaying the need for care and support
 from the community care budget. For this reason, we want to protect the funding
 that we provide to support this sector as far as possible, particularly where we
 can demonstrate that services are supporting our statutory duties and other
 priority funding areas.
- Frontline workers: We need to ensure we have enough social work staff and
 occupational therapy workers to carry out assessments and put care and support
 in place. We also need to retain enough financial assessment staff to ensure we
 are funding those who are most in need and that people pay the correct
 contribution.
- Care market: We need to ensure we have enough staff so that we can support the care market and ensure we have a good supply of services that deliver the best value.

Consulting on the savings proposals

There are no easy choices and we know that some residents will be very worried about how they and their loved ones might be affected. We are committed to consulting with you on these difficult decisions and providing as much information about their potential impact as we can to support decision making.

There are 11 savings proposals for Adult Social Care and Health that affect services. We are consulting with the public about all of these. As well as these savings, we are also looking at other funding, staffing and income generation opportunities.

This consultation is about the Mental Health Community Outreach Service. You can find out more about the other consultations and take part by visiting our website:

www.eastsussex.gov.uk/funding-gap-asch

A Government Budget is planned during the consultation period on 30 October 2024. If any Budget announcements affect these proposals, then that will be taken into account during the decision making process next year.

Consultation overview: MH Community Outreach

How the service works now

The Mental Health Community Outreach service is run by the Council. It is a short-term service, operating seven days a week. It offers support for up to four weeks to a maximum of 15 people at any one time. The service has seven members of staff, who are employed by the Council.

People are typically referred to the service by the Council's Health and Social Care Connect contact centre, or by health professionals such as GPs and community nurses. They can also be referred to the service by other adult social care teams.

The service offers therapeutic interventions, such as assessment and support planning, to people with mental health needs living in the community. This includes older people with depression and/or anxiety, mild cognitive impairment, and dementia.

The staff carry out home visits to people, where they carry out assessments on topics like mobility, equipment, mental health and wellbeing. Through support planning, they then help people to identify ways of completing everyday tasks that they may be finding

challenging due to their mental health needs. The service also provides support and advice for carers.

The aim of the service is to:

- promote faster recovery from illness,
- support people to get home from hospital,
- prevent unnecessary hospital or care home admissions,
- maximise independent living at home,
- provide support for carers and allow them to continue in their caring role,
- identify any care and support needs the client has through a range of assessments, and
- support people to access and engage with other community support and activities.

The service supported 118 people between April 2023 and March 2024.

What we are proposing to change

We are proposing to stop providing the Mental Health Community Outreach Service. As the service is a short-term one, people already using it wouldn't be affected by the change. If the proposal was agreed, we would stop accepting new referrals from February and the service would cease from April 2025.

There would still be support available to this group of people, but it would be provided by other Adult Social Care teams instead. As an alternative, people would be able to access other services such as occupational therapy, community mental health teams, the carer's breaks team, and the mental health bedded service at Milton Grange in Eastbourne.

Why we are proposing this saving

While we recognise the importance of this service, the budget pressures we face mean that we have to make difficult decisions about how we spend our money. The support provided by the outreach service is available from other teams and it is therefore hard to justify providing this additional home-based service.

How people and organisations would be affected

People who are already using this service would not be affected by the proposal. Those who need the sort of support it offers in future would need to access our universal services.

The outreach service is able to see most people referred to it within a week. The alternative services people would need to access if it stopped are unlikely to be able to see people so quickly.

This would mean people face longer waits for support. It may also mean that they have to get the information and advice they need from multiple services, instead of one person. These other services may not have the same specialist knowledge as the outreach service. All of this may affect clients' and carers' experiences of accessing support.

One of the aims of the service is to help get people home from hospital and prevent unnecessary admissions to the hospital. Stopping providing this service could mean that more people with mental health needs stay in hospital longer than needed. It could also result in some additional admissions to hospital, although it is hard to determine the likelihood of this at this stage.

Have your say on the proposal

We are keen to hear from everyone with an interest, including:

- people who have used the service or whose family members or friends have,
- the staff who work for the service,
- providers who work with the service,
- staff and organisations who work with the service or refer people to it,
- providers who support people who use the services, and
- our partners in the public and voluntary sectors who work with the service and would be affected by the proposed changes.

How you can take part

The consultation closes on 28 November 2024. Please note that if we receive any consultation responses after this date, we cannot guarantee that we will be able to take them into account.

You can fill in the survey online or request a paper copy by emailing or calling (see the 'how to get in touch with us' box later for details). The survey should take about 10 minutes to complete.

We can accept consultation responses via letter and email if you aren't able to fill in the survey. These are a little harder to keep track of and analyse, so it would help us if you can use the survey if you are able to.

If you need the survey in another format or language, please get in touch with us.

COMPLETE ME ONLINE

Visit our website at www.eastsussex.gov.uk/funding-gap-asch

How organisations can take part

Official responses from organisations should be submitted by email or post (see below for contact details). Individual staff wanting to take part should fill in the survey.

What happens next?

Decisions about whether we go ahead with the savings proposals are expected to be made by Councillors in February 2025. This means there won't be any changes to services before that date. Anyone currently using the services can continue to do so in the normal way and the services can continue to accept new clients.

Councillors will consider the results of the consultation alongside a report that sets out what we are proposing to do next and an Equality Impact Assessment (EqIA). An EqIA is a tool we use to understand how particular groups and communities would be affected by a proposed change. The papers, including the EqIA, will be available to the public on our website in advance of the meeting.

The time frame for any changes to services would reflect the legal and contractual requirements for the service in question and we would work closely with those people and organisations who would be affected.

How to get in touch with us

Questions about the consultation or your services

You can talk to the manager of your service or you can contact us by email or telephone:

Email: DPSOPSConsultation@eastsussex.gov.uk

Telephone: 01424 724035

Submitting a consultation response

Your survey can be emailed, posted or hand to us. If you aren't able to complete the survey you can submit your response by email or letter.

Email: consultationASC@eastsussex.gov.uk

Post: Funding Gap Consultations, North A Floor, County Hall, St Anne's

Crescent, Lewes, BN7 1UE

By hand: Give your survey to a member of the outreach service staff

The questionnaire

This survey is anonymous and we don't ask you to provide any personal information. There is an optional 'about you' section at the end. Please ensure that any comments you make don't include any names or personal details of you or anyone else. You can find our privacy notice about how the data will be stored and processed by East Sussex County Council on our website:

www.eastsussex.gov.uk/privacy/funding-gap-consultations-dps

Q1) Are you completing the survey as: (Please tick one box)

	$\hfill\square$ Someone who uses/has used the mental health outreach service
	$\hfill\square$ The family or carer of someone who uses/has used the service
	\square Someone who works for the service
	\square Someone who lives in East Sussex
	$\hfill\square$ Someone who works in health or social care in East Sussex
	\square Someone who works in housing in East Sussex
	$\hfill\square$ Someone who works in the voluntary or community sector
	\square Other (please provide details below)
lf y	ou ticked 'other' please provide details here:

To submit an official response from an organisation, such as from the board, senior leaders or heads of service, please provide it by email or letter, rather than completing the survey. Individual members of staff should fill in the survey as normal.

Q2a) How much do you agree or disagree with the proposal to stop providing		
the Mental Health Community Outreach Service?		
□ Strongly agree		
□ Agree		
☐ Neither agree nor disagree		
☐ Disagree		
☐ Strongly disagree		
□ Not sure		
Q2b) Please use the box below to tell us why you agree or disagree:		

Q3) How would the proposal to stop providing the Mental Health Community			
Outreach Service affect you or someone you care for?			
What you tell us will help us carry out an equality impact assessment.			
Q4) Do you have any other suggestions or comments you would like to make?			
\square Yes (use the box below for your comments)			
□ No			

Thank you for taking part in the consultation. If you would like to, please fill in the optional 'about you' section on the next pages.

Post your completed survey to: Funding Gap Consultations, North A Floor,
County Hall, St Anne's Crescent, Lewes, BN7 1UE

About You: Equalities Monitoring Form

We want to make sure that everyone is treated fairly and equally and that no one gets left out. That's why we ask you these questions. Your data is important to us, and we won't share the information you provide with anyone else. Your information will only be used and reported anonymously to support the activity you have completed the 'About You' survey for.

You do not have to answer these questions but by doing so you are helping to ensure our services effectively meet the needs of all our service users.
