BSIP Seaside and St Anthony's Avenue - Tree consideration

Dear [REDACTED]

Regarding the above project, many thanks for explaining and reviewing the plans with me. I acknowledge receipt of the proposals associated with the scheme and note your intention to undertake a public consultation regarding the proposed removal of the single elm on Seaside.

The information provided outlines the wider objectives regarding the bus route improvement scheme alongside the assessment of alternative engineering options.

I understand from the proposals that there will be planting of three standard trees within the open space adjacent to mitigate the loss of this tree.

Yours sincerely,

[REDACTED]
