

Setting the scene

The County Council has developed proposals to try and tackle the problem caused by large HGVs travelling through the centre of Rotherfield. Over some time there have been many instances of large HGVs turning right from Station Road into the High Street and either causing major congestion problems and/or hitting nearby buildings as they try to make the turn.

The proposals will involve a ban on HGVs over 10m in length from travelling along the B2100 and B2101 between the A267 and the Millbrook Industrial Estate in Crowborough. This will have implications on the size of lorry that could be used to deliver goods and services to the area affected by the ban.

This is your opportunity to comment on the proposals.
